

Molding Innovation Day in France

Date: Nov. 21, 2013

Time: 09:00-17:00

Location: Nantes, France

The Moldex3D Molding Innovation Day in France will take place in Nantes on the 21st of November. This meeting is designed for both Moldex3D users and prospects who are hoping to share and exchange their knowledge and ideas in the field of plastic injection.

In this one day event, we will introduce advanced industry processes, Moldex3D simulation applications, and share our experience of know-how on tackling product design and manufacturing problems. Please join us for this special event to discuss these advanced molding simulation technologies and how they can be applied in your industry. We look forward to seeing you!

heure	durée	Société	titre de la présentation	présentateur
09h00	5min	Technocampus EMC2	Introduction	Mme Hélène Le Floch
09h05	10min	CoreTech	Introduction	Larry REN
		SimpaTec	Introduction	Fabien BUCHY
09h15	30 min	SimpaTec	Présentation sur l'état des lieux de la simulation	Fabien BUCHY
09h45	45min	CEMCAT	RTM thermoplastique : nouvel enjeu de la simulation	Patrick DEWAILLY
10h30	30 min	PAUSE		
11h00	30 min	CoreTech	Composites et RTM dans Moldex3D R13	Larry REN
11h30	45 min	SUMIKA	Innovation process et matière	Franck BOLLAERT
12h15	75min	PAUSE DEJEUNER		
13h30	30min	LANXIS	Calcul et optimisation des pièces plastique	Christophe LANGUENOU
14h00	45min	MSC Software	La simulation autour de Digimat	Thibault VILLETTE
14h45	45min	TREXEL	Mucell® et Moldex3D deux outils complémentaires pour gagner en productivité	Martin JACOBI
15h30	20min	PAUSE		
15h50	25min	SimpaTec	Process Mucell® en simulation	Fabien BUCHY
16h15	45min	CoreTech	Moldex3D R13	Larry REN
17h00	05min	CONCLUSION		

*The seminar agenda is subject to change

◆ Event Information

Date : Nov 21, 2013

Location : Technocampus EMC², Nantes, France
