With the success of Molding Innovation Days seminars worldwide, Moldex3D and our partners are venturing out to a new territory. This time, Moldex3D is joining forces with Matsui, a co-host of this event to bring the latest concepts and insights of the plastic injection molding processes **first time** to South America! This half-day seminar in São Paulo, Brazil will feature several innovative manufacturing solutions to cater to a wide scope of industries. Attendees will have the chance to explore the latest design optimization technologies through a combination of technical and practical sessions delivered by experts across the industry. Space is limited so [register today](#). We look forward to seeing you!

***All seminar attendees will have a chance to win an iPad Air!***
